

28h

a breathtaking
NEW LEVEL

IN PERFORMANCE, COMFORT
& FISHABILITY

SUPERIOR PERFORMANCE

With the development of the 28h, Canyon Bay has taken performance and handling to new heights. With its sharp entry, the "V" hull of the Canyon Bay 28h slices through the water while the strakes and sharp down-turned chines deliver an ultra-smooth, ultra-dry ride...a ride so smooth and so stable that it's just blows away any competition.

FISHABILITY & COMFORT

The 28h sets the bar high when it comes to both comfort and fishing. Abundant aft and mid-ship seating, high gunwales, plentiful dry storage and built-in console cooler make the 28h a real pleasure to be aboard. What's more with up to 150 gallons of well capacity spread across 4 available live wells, built in rod storage, a large insulated fix box, a removable tackle center and a large deluxe console, the 28h is one incredible fishing platform.

SUPERIOR CRAFTSMANSHIP & CONSTRUCTION

Like all other Canyon Bay models, it's easy to tell that the 28h is designed right and built to last. Each boat is constructed using premium materials, such as carbon fiber, Kevlar hull, biaxial laminates, molded fiberglass stringers and a poured ceramic transom. Combine that with elegant lines, plenty of bow flare, flush mount stainless steel hardware and a molded toe rail which frames the fwd deck, and it's clear that Canyon Bay 28h is as pretty as she is strong.

Construction

Vinyl Ester Epoxy blended resin

Hand Laid Bi-Axial laminates

Kevlar Hull

Carbon Fiber sides and deck

Fiberglass stringer molded to hull (no wood)

Standard Features

1. 2 transom live wells (35 Gal. each)
2. Recessed trim tabs
3. Raw water wash down
4. Fresh water tank (20 Gal.)
5. 95 Gal. aluminum fuel tank
6. Full combing pads
7. Stainless ladder
8. 6 popup cleats
9. 6 cup holder rod holders
10. 4 transom rod holders
11. Cockpit lights
12. Pre-wired for trolling motor
13. 2 bilge pumps 1100 Rules
14. High speed pick up for live wells
15. Single PortaBracket or twin engine PortaBracket
16. 350 hp outboard engine or twin 200 hp
17. 60 Gal. insulated cooler / dry storage
18. 35 Gal. insulated cooler / dry storage
19. Anchor locker
20. Flush mounted stainless steel hardware
21. Isolated battery switch
22. Stainless steel rub rail
23. Power steering
24. Console Options: Standard, head, console, deluxe

Options

1. Mercury, Suzuki, Yamaha outboard engines
2. Aluminum framed with fiberglass hard top (T-top of Key West style) w/ 5 rocket launchers
3. Aluminum half tower w/ 10 rocket launchers
4. Aluminum half tower w/ 12 rocket launchers
5. Powder coated frames
6. Trolling motor
7. Power pole
8. Electronics
9. Bow Cushions
10. Transom seat / back rest
11. Under water lights
12. Trailer
13. Sea Star (steer by wiring) half tower and full tower
14. Leaning post live well (55 Gal.)
